

NAB Monthly Data Insights September 2024

NAB Economics

Key Points

- **Consumer spending**, according to NAB's transaction data, declined 0.3% after rising 0.9% last month.
- **Discretionary spending** was broadly flat while spending in **non-discretionary** categories declined 0.8%.
- Overall, consumer spending increased 0.9% in 3-month average terms and 3.2% over the past 12 months.
- **Business credits** grew 0.4% m/m. Overall, business credits increased by 6.8% over the past 12 months, or 8.5% excluding mining and agriculture.

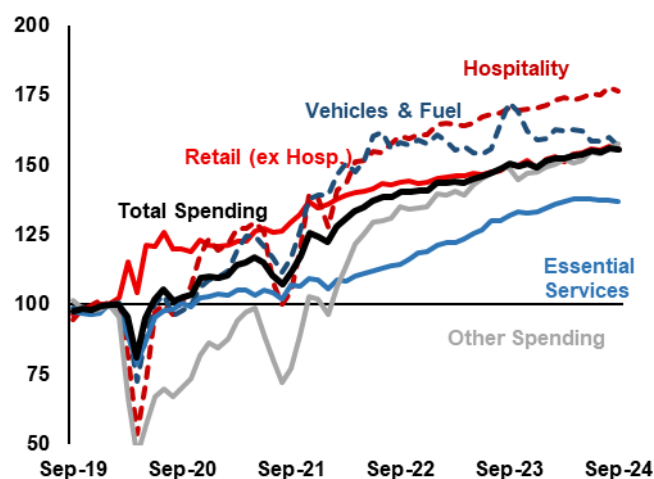

Monthly Consumer Spending

- Total spending decreased 0.3% in September. Overall, total consumer spending increased 0.9% in 3 month average terms and 3.2% over the past 12 months.
- Retail spending also went down 0.6%, with matching decreases in both goods retail and cafes & restaurants. For detail on retail spending, see **page 3**.
- Spending on vehicles & fuel and essential services decreased 2.1% and 0.3% respectively while other spending went up 1.1% (see **page 4**).
- Total spending on goods declined 0.8% and spending on services increased 0.3%. Discretionary spending was unchanged, but there was a decline of 0.8% in non-discretionary spending.

Table 1: Key Consumer Spending Growth Statistics (%)

Chart 7: Spending by State (Index, Jan 2020 = 100)

Chart 8: Spending by State (Index, Jan 2020 = 100)

Note: State spending totals differ from industry totals due to availability of geographic information. Spending data excludes taxes, rent, mortgages, gambling, finance, insurance, and other non-consumer transactions. Data are seasonally adjusted and subject to revision.

Monthly Consumer Spending - Retail Sector Detail

- Retail spending fell 0.6% in September after an increase last month. Spending decreased 0.6% for both goods retail and cafes & restaurants. Total retail spending increased 1% in three-month average terms and 4% y/y.
- Goods retail declined 0.6% with a large decrease in department stores (-3.5%) and other retail (-1.3%). There were slight decreases in food (-0.3%) and clothing (-0.4%) while spending on household goods was broadly unchanged. Overall goods retail spending was up 0.9% in three-month-average terms and 4% y/y.
- Hospitality spending increased 1.3% in three-month-average terms and 3.7% y/y.

Table 3: Retail Spending Growth (%)

	Jul-24	Aug-24	Sep-24		
	m/m	m/m	m/m	3m/3m	y/y
Food	0.1	0.1	-0.3	-0.1	3.0

Note: Data are seasonally adjusted and subject to revision.

Monthly Spending – Detail for Non-Retail Subcategories

- Spending on vehicles & fuel decreased 2.1% in September, led by a decrease of 3.5% in fuel spending.
- Spending on essential services fell 0.3% m/m. Spending went down in utilities (-4.4%), offset by increases in education (1.9%) and health & care (1%). Overall, spending on essential services decreased 0.4% in three month average terms, which was led by a large decrease of 7.1% in spending on utilities due to the energy bill relief.
- Other spending grew 1.1% with the highest growth in arts, recreation & travel (2.8%) and professional services (2.6%), only partly offset by a decrease in construction (-2.8%) and other services (-0.5%). Overall, other spending went up 2.3% over the past three months and 6% y/y.

Table 4: Spending Growth by Subcategory (excl. Retail) (%)

	Jul-24	Aug-24	Sep-24		
	m/m	m/m	m/m	3m/3m	y/y
Vehicles	0.8	0.7	0.6	1.1	3.0
Fuel	-0.2	1.0	-3.5	-3.0	-14.1
Vehicles & Fuel Total	0.1	0.9	-2.1	-1.7	-9.0
Education	-1.7	3.5	1.9	2.6	11.4
Utilities	-1.9	-2.7	-4.4	-7.1	-7.7
Health & Care	0.8	-0.1	1.0	1.0	6.4

Other Spending Total	-0.5	1.2	1.1	2.3	6.0

Chart 14: Y/Y Growth, Non-Retail Subcategories

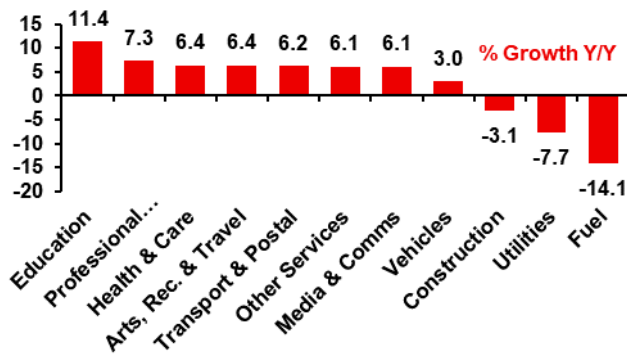

Chart 15: Vehicles & Fuel Index (Jan 2020 = 100)

Chart 16: Essential Services Index (Jan 2020 = 100)

Chart 17: Other Spending Index (Jan 2020 = 100)

Note: Data are seasonally adjusted and subject to revision. 'Arts, Recreation & Travel' amalgamates Arts & Recreation Services, Accommodation (as Food Services are captured separately under Retail) and Travel Agencies (which make up the bulk of consumer Administration & Support Services spending). 'Other Services' includes some residual Administration & Support Services and Rental, Hiring & Real Estate services.

Monthly Business Credits

- Business credits increased in September by 0.4% m/m. The highest m/m growth was in mining (6.9%), other services (5.8%) and construction (1.2%), offset by decreases in utilities (-2.6%), wholesale trade (-2.1%) and retail trade (-1.4%).
- Overall, business credits were up 1.1% in three month average terms and 6.8% in the last 12 months.

Table 5: Business Credits Growth by Industry (%)

About this report

NAB publishes aggregated customer transaction data with the view to providing real-time insights into economic activity in Australia. NAB takes data privacy very seriously. All customer transaction data has been aggregated and no individual's data is specifically identified or analysed as part of this process. The underlying data used in this report are not sold or made publicly available. This monthly report replaced the fortnightly *Data Insights* report and the monthly *NAB Cashless Retail Sales Index*, which were discontinued in October 2022.

Consumer Spending Methodology

Data on consumer spending are derived from NAB electronic transactions data, encompassing more than 4 million transactions per day. The data include transactions made by EFTPOS, Credit Card, BPAY, Bank Transfers, Direct Debits and Paypal services where available, and include transactions with Australian and international merchants. Spending includes both online and offline transactions. The data excludes cash withdrawals made during a purchase and purchases made offline in an overseas location. As the data only capture electronic transactions, results can be affected by changes in the take-up rate of electronic payment methods relative to cash. State splits of spending are based on where the customer lives, which may or may not be where the actual spending activity occurs. Customers without an Australian residential address are excluded. Transactions attributable to non-consumer sectors including Manufacturing, Mining, and Wholesale are excluded, as are Financial & Insurance Services transactions and Public Administration transactions (largely tax payments). Gambling spending and rental and mortgage payments are also excluded. Opportunities to expand coverage to include spending in these areas will be explored in the future. Individual industry and state series are seasonally adjusted using the X-11 method.

Business Inward Credits Methodology

Data on business inward credits are derived from credits paid into the accounts of NAB business banking customers, and are intended to approximate business revenues. Data do not account for business expenses and therefore are not reflective of profits or margins. Credits related to financing arrangements and capital raising are excluded where possible. Industry growth rates can also be affected by significant changes in the composition of NAB's business banking customer base. Businesses in the Financial & Insurance Services sector and Public Administration & Safety are excluded. Individual industry series are seasonally adjusted using the X-11 method and a three-month moving average is used to smooth volatility related to the timing of payments made to businesses. History for these series are limited and as such seasonal variation remains difficult to capture accurately. Opportunities to extend the available history to improve analysis will be explored in the future.
